CAREER LABS REPORT

Shaping Future Leaders at Tetr College of Business

Designed to give students early, meaningful exposure to the professional world, Career Labs integrates global industry practices, entrepreneurial thinking, and hands-on experience into the student journey - across geographies, sectors, and time zones.

From internships and career prep to access to industry leaders, we equip students with the tools and opportunities to excel in a dynamic global business landscape and craft meaningful professional stories.

Students get the opportunity to shadow top CXOs and business leaders, work on real-life projects with established companies and high-growth startups, participate in pitch competitions, networking sessions and build their resumes in real time.

The program encourages not only skill development, but also confidence-building and early-stage entrepreneurial exploration.

Strategic Career Development: Our Core Focus

- **Empowering Global Leaders**

Career Labs blends international exposure with entrepreneurial thinking, equipping students with practical skills to navigate and thrive in global business environments.

- **Tailored Career Pathways**

We craft personalized career plans with students and offer exclusive resources like mentorship sessions, industry insights, and internships with top companies and startups.

- **Real-World Experiences**

From live projects to business immersions and corporate interactions, students gain hands-on experience to prepare for real-world challenges.

- **Staying Ahead of the Curve**

Career Labs evolves with the industry, offering cutting-edge resources and insights into emerging trends to prepare students for what's next.

Semester Roadmap

Problem Statement- Expanding UAE seller base and strengthening cross-border ecommerce performance

Impact- Seller acquisition, onboarding, performance optimization, and growth planning to drive revenue and marketplace engagement

Region- Dubai

Internship Org- Kartit Realty

Problem Statement- Executive and administrative support to streamline CEO operations

Impact- Remote admin assistance to improve workflow efficiency and ensure operational continuity

Region- Dubai

In The Wild Consulting at Tetr

Our students don't just intern — they consult, collaborate, and contribute to live projects, showcasing their expertise across industries and proving their value in real-world, results-driven environments.

Toumi @ NeceSera (India)

Developed a full-fledged GTM strategy for a menswear launch. From pricing models to brand storytelling — she did it all.

💰 Paid | 🛍️ Fashion Retail | ⌚ 8 Weeks

Natalia @ Nexus Climate (Dubai)

Designed a carbon compliance product and proposed blockchain-based tracking. Deep-dived into UAE's sustainability framework.

💰 Paid | 🌱 Climate Tech | ⌚ 6 Weeks

Jana Amr @ Immortal Dragons, China)

Interning at Immortal Dragons, a cutting-edge VC firm focused on AI, Web3, and human longevity in their design and research teams, shaping the future of human enhancement.

💰 Paid | 🏠 Venture Capital | ⌚ 6 Months

Ruth @ Harvard Affiliate Project

Contributed to building a LegalTech and BusinessTech platform with a Harvard professor. Think secure invoicing, intelligent consultant matching, and a whole lot of UX.

💰 Paid | ⚖️ Tech for Law | 🧠 Live Ongoing

Hear from our Recruiting Partners

The logo for Nas Daily, featuring the word "NAS" in yellow and "DAILY." in black, all within a white rounded rectangular box.

Nas Daily, Singapore

Ansh turned his unpaid role at global media brand Nas Company into a paid opportunity, showcasing initiative and a strong sense of ownership. He earned one of the most detailed and positive evaluations from the Nas Daily team, who praised his creativity, diligence, and ability to work independently in a fast-paced environment.

The logo for Emeritus, featuring a green square with a white 'E' and the word "EMERITUS" in black, all within a white rounded rectangular box.

Emeritus, South Africa

During her Go-To-Market internship at Emeritus, a leading global ed-tech company, Haneen played a key role in launching a new flagship product. Her sincerity, enthusiasm, and strong engagement stood out, particularly impressive given the challenges of a fully remote setup.

The logo for Nexus Climate, featuring three blue dots of varying sizes and the word "NEXUS" in black, with "CLIMATE" in smaller blue text below it, all within a white rounded rectangular box.

Nexus Climate, Dubai

Natalia completed a 6-week paid internship with Nexus Climate, contributing to the design of a carbon compliance product and its go-to-market strategy. She successfully delivered detailed market research, analyzed UAE's NDC 3.0, and explored blockchain solutions for supply chain transparency. Her work with regional startups and sustainability reports reflected strong analytical skills and initiative.

The logo for Mirai Minds, featuring a stylized orange and blue bird icon and the text "MIRAI MINDS" in orange, with "HOLISTIC LEARNING EXPERIENCES" in smaller black text below it, all within a white rounded rectangular box.

Mirai Minds, Japan

"I must tell you that some of the candidates have completely blown my mind! I am so amazed at the young talent you have at TETR: and am so glad we were able to cross paths!" - Tanya Malik, founder of Mirai Minds

Hear from the Tetr Tribe

Toumi Ayai

My internship at Paive was more than just a work experience. As someone passionate about sustainable fashion, getting the opportunity to work with a brand that aligned so deeply with my values felt surreal. I wasn't just learning about marketing strategies or customer insights — I was learning how to build a brand that tells a story. Every day at Paive pushed me to think more creatively, to listen more deeply, and to believe in the power of purpose-driven work. This internship didn't just give me skills, it gave me clarity about the kind of entrepreneur I want to be. I'll always be grateful for the trust, the mentorship, and the space I was given to grow.

Fiene Klemmer

Interning at Nivia was an incredibly enriching experience that helped me grow both personally and professionally. I'm deeply grateful to TETR for providing opportunities that allow us to step into real-world environments and apply our learning. During my time at Nivia, I developed a deeper understanding of branding, digital marketing, and strategic thinking, which has strengthened my ambition to continue learning - not just in this field, but across different industries as well. I'm thankful to both TETR and Nivia for helping me take such a meaningful step forward.

Haneen Elweresh

I landed my internship at Emeritus while standing at the airport, just moments before arriving in India — a moment that marked the beginning of an unforgettable journey. At a \$3.2 billion company transforming global education, I had the opportunity to develop leadership programs and run business simulations, gaining hands-on experience in a truly dynamic environment. Beyond the skills I built, Emeritus taught me resilience, collaboration, and the power of innovation. I'm deeply grateful for the experience and the incredible people who helped shape my growth along the way.

CXOs on Campus:

Learn from industry leaders

Through 'CXOs on Campus,' we bring senior executives from global corporations into the classroom, offering students direct access to top industry leaders.

From tech founders to venture partners, over **70+ CXO interactions** happened in just one year. Panels turned into partnerships. Coffee chats turned into internship offers.

Business Immersions

Throughout the year, students engaged in curated business immersions across Dubai and India—designed to provide firsthand exposure to operating models, market dynamics, and strategic decision-making in diverse industries.

FairPrice, Singapore:

Large-scale retail operations offered students insights into supply chain efficiency and cooperative business models.

Parliament Visit, Singapore:

Students gained firsthand exposure to governance and policymaking through a visit to Singapore's Parliament.

ShopBack Corporation, Singapore:

Platform-led growth models revealed how students learned about digital consumer behavior and cashback-driven commerce.

Forest City and IRDA, Malaysia:

Students examined smart city development and regulatory frameworks shaping cross-border urban projects.

Network School, Malaysia:

Alternative education models introduced students to community-driven learning and peer-based collaboration.

Pee Safe, India:

An insider's view of operations helped students understand logistics, inventory management, and D2C scaling.

GITEX Global, UAE:

At the world's largest technology and startup exhibition, students engaged with global founders, investors, and tech leaders while pitching ideas and exploring emerging innovations.

Emirates EbdAA, UAE:

Students explored cutting-edge aviation technologies, including AI, VR, XR, and robotics, gaining insights into the future of customer experience and airline innovation.

DP World, UAE:

A firsthand look into global trade operations exposed students to port infrastructure, logistics, and large-scale supply chain management.

Global AI Show Abu Dhabi, UAE:

Real-world applications of artificial intelligence came alive as students engaged with expert-led sessions across industries.

Aldar, UAE:

Students gained insights into real estate development, asset management, and urban planning through Aldar's large-scale projects.

Emaar, UAE:

Senior leaders from Emaar interacted with students, sharing perspectives on building globally iconic real estate brands.

LinkedIn Immersion, India:

At LinkedIn India's headquarters, students explored the future of work, personal branding, and platform-driven careers.

Ghana International Trade Fair, Ghana:

Regional trade dynamics helped students understand consumer markets and cross-border business opportunities.

FixDerma, India:

Students gained insights into building a science-backed skincare brand in competitive consumer markets.

Fairafric, Ghana:

Ethical manufacturing practices offered students a view into sustainable chocolate production and local value creation.

Coca-Cola, Ghana:

Large-scale bottling operations revealed to students how distribution networks and brand leadership scale.

Agri Impact, Ghana:

Agribusiness innovation exposed students to scalable rural value chains and food systems.

D2C Founder Connect

25 D2C founders and CXOs, 15-minute rotating mentorships.

A focused networking event that brought together approximately 20 C-suite executives and industry leaders from the Direct-to-Consumer sector with students seeking insights into brand building. Students engaged in structured 15-minute sessions with each executive or industry leader, using this time to ask targeted questions about D2C strategies and brand development practices.

The event directly supported students' capstone projects focused on the Direct-to-Consumer market in India, helping them identify and understand key success factors in the D2C ecosystem.

15 links to watch to know about Tetr:

How does Tetr prepare students for a world where traditional job roles might end up becoming obsolete?
Get to know from the Founder **Pratham Mittal** and Program Director **Tarun Gangwar**

Built at Tetr: Startup Success Stories

Bike Arena - Meet Chng Jiabao, an 18 year old Tetr student from Singapore, who built a 7 figure stock portfolio, served in the military, and is now a founder of a high end bicycle brand:

Tafflo - Six students from Tetr cracked the dropshipping game and made \$20,000 in revenue in just 3 months, here's their story:

Immersion

Watch how Tetr's immersive learning model enables students to directly engage with diverse markets, cultures, and industries that provides skills that go beyond classroom learning:

This is how we network at Tetr

At Tetr, networking is more than just exchanging contacts - it's about building meaningful relationships, sharing ideas, and empowering each other.

Immersion in Dubai

The Tetr Tribe got an exclusive opportunity to step inside the Emirates Innovation Centre in Dubai and learn about the vision behind the iconic airline brand. Here's a sneak peak of their experience:

Startup Bazar

The Tetr Tribe took over a buzzing market in Gurgaon, India where they sold their D2C products to customers and got real time feedback on their brands from Indian consumers:

Watch how the students stepped into Emaar HQ in Dubai and learnt what it takes to build at scale from 11 CXOs:

This is how we pitch at Tetr

Watch how the Tetr Tribe took the stage to pitch their Dropshipping Businesses built in Dubai to investors in a Shark-Tank style showdown:

Immersion in India

From Messi's football to Sachin Tendulkar's cricket bat, Nivia has been behind some of the most prized sports equipment. The Tribe got an exclusive tour of Nivia's factory and learned firsthand how the legendary brand creates its timeless products.

Tetr Terms at a Glance

As the Dubai term wrapped up, the students take a moment to reflect on the growth, the lessons, and the challenges they've overcome.

This is how we learn by building businesses

The Tetr Tribe dove headfirst into their first entrepreneurial challenge: dropshipping. It's no longer just about ideas - it's about execution and learning from every step of the journey.

Tetr Journals: Student Success Stories

Meet **Shayan Modabber**, a 20 year old Tetr student from **Germany** who built a solar mirror model at 12 and has developed a patented solution for water.

Meet **Adkhilni Shidqie**, a 17 year old Tetr student from **Indonesia** who is a social entrepreneur and aims to lead with impact, one startup at a time

Viral Visits: Tetr in the Spotlight

Tetr doesn't just attract students, it captivates global influencers. Their campus visits have turned into viral content, highlighting our impact on the future of learning.

Nas Daily

Nas Daily, known for his viral one-minute videos, featured Tetr's unique model where students travel to seven countries to graduate. His content showcased our innovative approach and reached a global audience, sparking conversations about the future of education.

Luisito Comunica

Mexican YouTube sensation Luisito Comunica explored Tetr's campus, sharing his experiences with his vast Spanish-speaking audience.

Drew Binsky

With over 5 million followers, travel vlogger Drew Binsky visited the Tetr campus in Dubai. He highlighted our hands-on learning model and global curriculum, offering his audience an inside look at how we're reshaping higher education.

Korean Englishman & Jolly

The duo behind Korean Englishman brought Tetr students together to experience Korean culture through food and traditions. Their videos highlighted the cultural immersion aspect of Tetr's curriculum, emphasizing the importance of global perspectives in education.

Where Else Do You Play Pickleball with a VC?

At Tetr, students meet top founders and CXOs in relaxed, high-energy spaces — whether it's a cricket pitch or a pickleball court. These offbeat connects create conversations that turn into careers.
